Basser Global Prize Application 2018

In a separate document, please answer the following three questions. Please make sure that your name and page numbers appear on each page of the document.

- 1. Summary Statement of Major Research Accomplishments (500 words maximum)**
This statement should summarize and succinctly state the major research accomplishments of the nominee, with a particular emphasis on how these findings have advanced BRCA related research. Accomplishments can span basic biology, diagnosis, treatment and outcomes for BRCA1/2 carriers and their families.
- 2. Listing of five most important publications related to BRCA research (250 words maximum for each)**
Provide a description of the importance of each publication.
- 3. Vision for future BRCA research (1,000 words maximum)**
The Nominee will describe a broad vision of her/his research program over the next 5 years.
